### **RHINE FALLS :**

When researching my visit to Switzerland, I learned that just an hour train ride away from Zurich was Europe's largest waterfall, Rhine Falls. I just knew that I had to take a day trip to see this beautiful waterfall and it was as great of a day trip as I had thought that it would be.

As the largest waterfall in Europe, Rhine Falls measures 490 feet wide and 75 feet tall. While this seems like a rather small waterfall compared to the likes of other famous large waterfalls around the world, like Niagara Falls and Iguazu Falls, it's still very impressive and definitely worthy of a visit. The falls formed over 14,000 years ago during the ice age on the upper Rhine River.

While the falls are most powerful in the summer months, the water flow of the falls is still strong enough the remainder of the year, making it a year-round attraction to visit.

### **LINDT CHOCOLATE FACTORY :**

The Lindt Home of Chocolate is an immersive chocolate museum and visitor center located in Kilchberg, Switzerland, just 20 minutes from Zurich. It offers a captivating experience for chocolate enthusiasts of all ages, blending interactive exhibits, a world-class shop, and hands-on activities.

Definitely a must visit place for all chocolates lovers. Learned a lot about the origin of chocolates, its history, chocolate making and etc from this. Had so much chocolate tasting that we are all full at the end of the tour.
